*Robot Games – teams are called up 4 at a time, 2 tables are setup, but only 1 match run at a time

*Technical & teamwork have 2 teams of judges at a time, with the third team free to roam

*Presentations are all done in one room, with the audience set up to see both sides.

Judging teams alternate as the teams set up & present on left & right sides at the front of the room.

While one team is being questioned, the next presenters are setting up. Only one team performs at a time.

Even though times are 12 minutes apart, the whole thing takes more like 15 minutes or so because of the staggered setup & questions.

**Check your Coaches Check list!*
